

Return and Recycling Concept Checklist acc. to. § 7a of Germany's ElektroG

Producers or similar market participants intending to put electrical or electronic appliances on the market in Germany must provide German authorities with a process description for the take-back and return of any appliances that are deemed only relevant for professional purposes (other than private households and consumers).

In order to facilitate a take-back concept suitable for individual customers, please answer the following questions:

Relay of any pick-up orders from consumers	
<p>Customers may choose between pick-up orders first being relayed to their own in-house entities (for checking feasibility) (Alternative 1) or being sent directly to our logistics division (Alternative 2).</p> <p>Please choose only ONE alternative:</p>	
<input type="checkbox"/>	<input type="checkbox"/>
Alternative 1	Alternative 2
<p>For the case of Alternative 1 please provide us with specific contact details:</p>	
<p>Contact person / division:</p>	_____
<p>Phone / Fax:</p>	_____
<p>E-Mail-Address:</p>	_____

Which types of professional equipment do you put on the market in Germany?¹

Which yearly amounts of professional equipment do you put on the market?

Are there any pre-existing take-back systems (in Germany)? How do your customers recycling these appliances thus far?²

Are there any additional information you'd like to add?

¹ Please add detailed information (brochures, photos, schematics).

² Please be as detailed as possible.
